

Document Library

iPipeline's Document Library gives your organization the ability to quickly publish and organize libraries of content for utilization on your web portals.

■ Product Highlights

- ▶ Streamline content delivery by organizing your files into multiple libraries, which can be placed anywhere on your web portal.
- ▶ All document formats are supported. Publish PDF's, Powerpoints, Word Docs, Excel spreadsheets, Flash, and more, quickly and easily. You can also store webpage bookmarks.
- ▶ Libraries can be styled to match your web portal, and each instance of the library on your portal can have it's own, individual style.
- ▶ Use the auto-scheduling feature to automatically add and remove files at pre-set dates.

Marketing Library
